

## February 11 Is New Date Set By Vice-President

## February 11 Is New Date Set By Vice-President

Chas. Mitchell

Pahoehoe Junior Chamber of Commerce, held Tuesday night in the Legion pavilion, it was announced by Paul Rardin, president of the organization, that several state notables have been invited to attend the district meeting of the junior bodies in Pahoehoe February 11. The date was changed from January 28 to February 11 at the request of Chas. Mitchell of Vero Beach, who is vice president of the district which includes nearly a dozen organizations.

Mr. Mitchell notified the Pahokee group that his present plans call for the attendance of Jimmy Milligan, state president of the junior chamber and the state secretary as well. Harold Colee, president of the State Chamber of Com-

merce has also been tendered an invitation to attend the meeting and J. L. Kerr, a director of the state organization, stated yesterday that Mr. Colee had already expressed a desire to visit Pahokee, therefore local members feel sure that he will be in attendance at the district meeting.

The entertainment committee

reported Tuesday night that plans have been made with the Pahokee Woman's club to furnish the turkey dinner on the above date. They served a turkey dinner at a meeting held by the group several months ago and it was voted one of the finest meals ever spread before any gathering.

Mr. Mitchell will be in charge

the business session of the program and following that the program committee will have charge of the evening's entertainment.

## How Calotabs Help Nature To Throw Off a Bad Cold

Germs have found in Calotabs a most valuable aid in the treatment of colds. They take one or two Calotabs three or four times a day, and repeat the third or fifth tablet if needed. How do Calotabs help Nature throw off a cold? First, Calotabs are one of the most thorough and dependable of all medicinal preparations, thus cleaning the intestinal tract of the germ-laden mucus and bacteria.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the body. Third, Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds. Calotabs are quite economical; only twenty-five cents for the family package, and only ten cents for the trial package.

## WHY PRE-COOL?

The rapid cooling of fruits or vegetables by pre-cooling immediately after loading in refrigerator cars and before shipment, keeps them from experiencing several warm days while slowly cooling en route to the market. It insures an even, low temperature all the way to direct destination with no necessity for re-icing. In this way, the initial freshness, flavor and color of the fruits and vegetables from the groves and fields are retained all the way to the market, and they will naturally command a higher average price.

## WHY PRE-COOL WITH ICE?

Ice is the only medium, with a rapid air circulation that automatically and promptly cools shipments of perishable commodities with no danger of frosting or shrinkage; for washed and deodorized air circulating through the ice to the fruits or vegetables is at an ideal temperature and humidity, and cools without discoloring or drying them out. They are "ICEAIR CONDITIONED."

## WHY PRE-COOL WITH THE PHILLIPS SYSTEM?

From tests which were recently conducted by the United States Department of Agriculture, no refrigerator car pre-cooling system without the use of ice or a similar medium for controlling temperature and humidity has equaled the performance of the Phillips portable pre-cooler. Because of its proven ability,

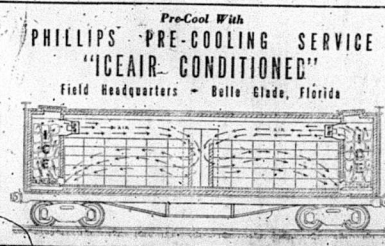

tained all the way to the market, and they will naturally command a higher average price.
